A PROJECT WHERE
WE MADE A SMART
USE OF
SUSTAINABILITY AND
ECO-FRIENDLINESS

THE SITE HAD A TREE RIGHT AT THE CENTRE OF SET-
BACK AND INTERIOR CAMPUS LINE, FOR THE SAME WE
WRAPPED THE METAL SHEET LAYERED WITH OXIDIZED
PAINT AROUND IT WITHOUT DAMAGING THE
LANDSCAPE. ALONGSIDE WE ADDED LASER CUT BIRDS
FLYING DIRECTIONAL TOWARDS THE SKY AND
MERCING SEAMLESSLY WITH THE ORGANIC STYLE OF
TREE AND BRANCHES

INTERIOR OF THE LOBBY

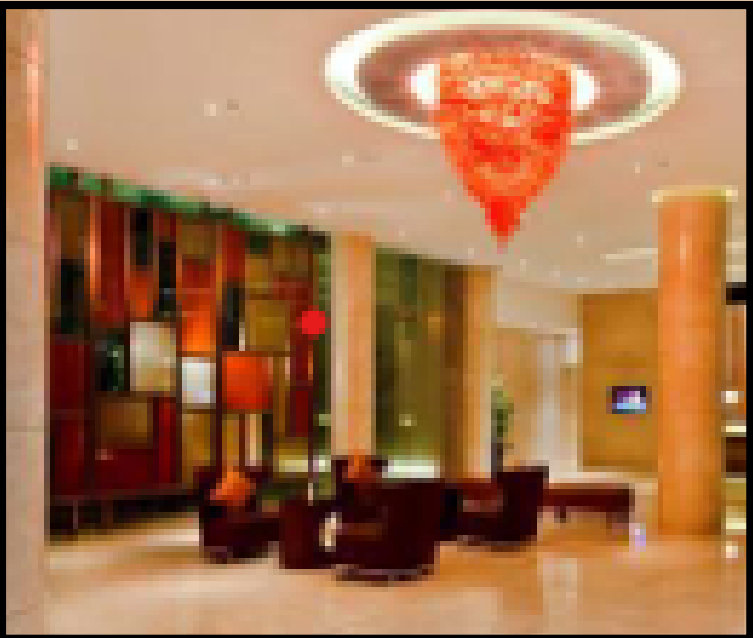

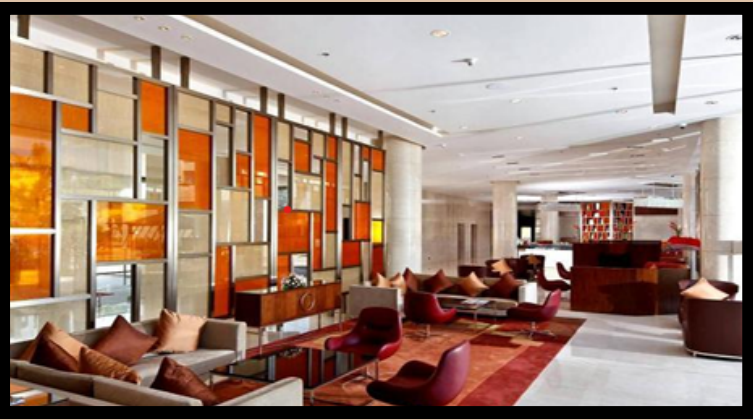

a stunning lobby featuring a striking installation of laser-cut butterfly designs made from metal and onyx stone.

The delicate butterflies are beautifully backlit, creating a mesmerizing interplay of light and shadow that captures attention. At the center of this inviting space sits a smart Buddha, serving as a focal element that combines elegance with a sense of tranquility.

This thoughtful design seamlessly blends art, technology, and spirituality, making the lobby a unique and memorable experience for all who enter.
